Chapter 1

Introduction

1. MARKETING MIX

A MARKETING MIX INCLUDES MULTIPLE AREAS OF FOCUS AS PART OF A COMPREHENSIVE MARKETING PLAN. THE TERM OFTEN REFERS TO A COMMON CLASSIFICATION THAT BEGAN AS THE FOUR PS: PRODUCT, PRICE, PLACE, AND PROMOTION.

EFFECTIVE MARKETING TOUCHES ON A BROAD RANGE OF AREAS AS OPPOSED TO FIXATING ON ONE MESSAGE. DOING SO HELPS REACH A WIDER AUDIENCE, AND BY KEEPING THE FOUR PS IN MIND, MARKETING PROFESSIONALS ARE BETTER ABLE TO MAINTAIN FOCUS ON THE THINGS THAT REALLY MATTER. FOCUSING ON A MARKETING MIX HELPS ORGANIZATIONS MAKE STRATEGIC DECISIONS WHEN LAUNCHING NEW PRODUCTS OR REVISING EXISTING PRODUCTS.

SOURCE: - <https://www.google.com/url?>

4Ps Of Marketing Mix

- **Product in Marketing Mix:**

A product is a commodity, produced or built to satisfy the need of an individual or a group. The product can be intangible or tangible as it can be in the form of services or goods. It is important to do extensive research before developing a product as it has a fluctuating life cycle, from the growth phase to the maturity phase to the sales decline phase.

A product has a certain life cycle that includes the growth phase, the maturity phase, and the sales decline phase. It is important for marketers to reinvent their products to stimulate more demand once it reaches the sales decline phase. It should create an impact in the mind of the customers, which is exclusive and different from the competitor's product. There is an old saying stating for marketers, "what can I do to offer a better product to this group of people than my competitors". This strategy also helps the company to build brand value.

- **Price in Marketing Mix:**

Price is a very important component of the marketing mix definition. The price of the product is basically the amount that a customer pays for to enjoy it. Price is the most critical element of a marketing plan because it dictates a company's survival and profit. Adjusting the price of the product, even a little bit has a big impact on the entire marketing strategy as well as greatly affecting the sales and demand of the product in the market.

Things to keep on mind while determining the cost of the product are, the competitor's price, list price, customer location, discount, terms of sale, etc.,

- **Place in Marketing Mix:**

Placement or distribution is a very important part of the marketing mix strategy. We should position and distribute our product in a place that is easily accessible to potential buyers/customers.

- **Promotion in Marketing Mix:**

It is a marketing communication process that helps the company to publicize the product and its features to the public. It is the most expensive and essential components of the marketing mix, that helps to grab the attention of the customers and influence them to buy the product. Most of the marketers use promotion tactics to promote their product and reach out to the public or the target audience. The promotion might include direct marketing, advertising, personal branding, sales promotion, etc.

2. E. PAYMENT INDUSTRY

An electronic payment system is a technologically-driven platform that enables the transfer of funds electronically, allowing individuals and businesses to make online transactions securely and conveniently. It leverages various digital channels, such as credit/debit cards, mobile wallets, internet banking, electronic funds transfers (EFTs), and cryptocurrency, to facilitate seamless money exchanges. Through encryption and robust security protocols, these systems safeguard sensitive financial information, ensuring a safe and reliable means of conducting digital payments in real time, regardless of geographical boundaries.

SOURCE: - <https://www.google.com/url?>

3. Digital bank Industry

Digital banking involves the digitization of all traditional banking products, processes, and activities to serve customers through online channels.

What are digital banking services exactly? Most frequently, they include the following operations and activities (all the traditional banking services that are available 24/7 on mobile phones, computers, and compatible smart devices, without the need for a customer's presence in the bank branch):

- ☐ Obtaining bank statements
- ☐ Cash withdrawals
- ☐ Transfer money
- ☐ Checking/savings account management
- ☐ Opening a digital bank account

- ☐ Loan management
- ☐ Bill payments
- ☐ Cheques management
- ☐ Transaction records monitoring Obviously, digital banking software makes all traditional services easier to access, understand and manage.

NEED OF THE STUDY

A report should start with the problem undertaken in the study. It should give the background of the problem, need for research and hypothesis formed for the purpose. The study has been made for the partial fulfilment of the requirement for the award of the bachelors in business administration (BBA) Course.

The main purpose of the study is to undertake an extensive training in a real situation in an organization and to get a practical knowledge and experience about the topic.

- ☐ To determine the factor, which persuade the BHARAT PE.
- ☐ To find out the company's position in the E-payment market.
- ☐ To find out the Marketing Mix and Strategies of BHARAT PE.
- ☐ To identity the organizational features of BHARAT PE

OBJECTIVE OF THE STUDY

Use of E-payment and UPI has increased tremendously in India. Every age of group uses it, now days it become a necessary thing. many kinds of surveys are conducted by BHARAT PE team time to time. This is end & last feedback for any kind of organization.

Study project is an essential part of BBA curriculum. This study was conducted on “TO ANALYZE THE MARKETING MIX AND MARKETING STRATEGIES” In INDIA

The objectives of the study are as given below:

- ☐ To determine the factor, targetting and positioning.
- ☐ To find out the company's position in the E-payment market.
- ☐ To try and understand differentiation.
- ☐ To find out market mix of BHARAT PE.
- ☐ To learn the strategy of BHARAT PE.

CHAPTER -2

Company Profile

BHARAT PE

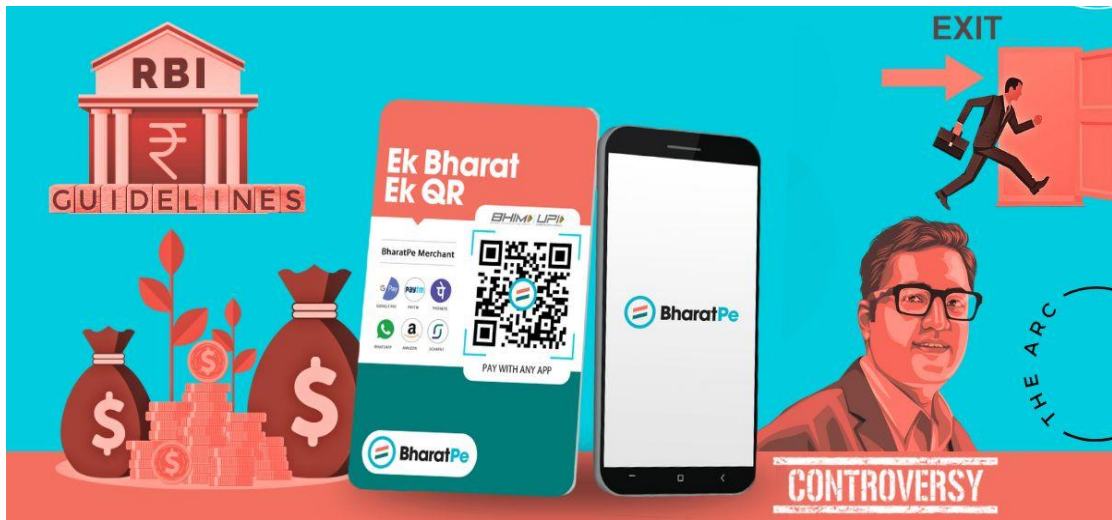

Bharat Pe was started in 2018 with the mission to build a holistic FinTech platform for merchants and small businesses. The idea was to extend a robust financing ecosystem that could be leveraged by the merchants and help in scripting the economic growth of the country.

Bharat Pe is committed to the vision of empowering the 63 million+ strong community of micro, small and medium enterprises (MSMEs), including offline merchants and Kirana store owners, with a range of fintech products, especially designed to address their needs.

Today, Bharat Pe offers a suite of simple, easy-to-use and secure fintech products including payments and business loans to its merchant partners. At present, it has an extensive network of 10 million merchants across 400 cities in the country.

SOURCE: - <https://www.google.com/url?>

SOURCE: <https://www.google.com/url?>

➤ About Bharat Pe:

- **Sector:** Fintech
- **Founder:** Ashneer Grover and Shashvat Nakrani
- **Year of establishment:** April 2018
- **Headquarters:** New Delhi
- **CEO:** Suhail Sameer
- **Website:** www.bharatpe.com
- **Legal name:** Resilient Innovations Pvt. Ltd.
- **Tagline:** “Ab se Dukandar is king” and “Apne Parivar Aur Shop Ko Rakho Insured”
- Bharat Pe has launched India’s first UPI “Bahi Khata” for merchants and SMEs.

➤ Establishment of Bharat Pe:

Bharat Pe is a QR code-based payment app for merchants, Kirana store owners, and SMEs. The app allows the user to accept UPI payments. Through a single QR code of Bharat Pe without any commission. The app also facilitates easy card acceptance and small business financing. Bharat even offers loans to the merchants up to Rs.7 lacs which the merchant can avail of for 3-12 months.

The Bharat Pe app allows a quick sign-in procedure. And an instant receipt of funds into the bank account of the user. The merchant repays the loan amount in easy installments. Bharat Pe processes loans worth Rs.300 crore every month. It has plans to launch secured lending products for merchants, like gold loans and auto loans.

➤ Founders and the team:

- Founders – Bhavik Koladiya, Ashneer Grover, Shashvat Mansukbhai Nakrani
- CEO (Chief Executive Officer) – Suhail Sameer
- CRO (Chief Revenue Officer) – Nishit Sharma
- CBO (Chief Business Officer) – Nishant Jain
- CMO (Chief Marketing Officer) – Parth Joshi

- **NOTE:** With the resignation of Ashneer Grover on February 28, 2022, BharatPe lists Bhavik Koladiya and Shashvat Nakrani as its co-founders.

Ashneer Grover:

SOURCE: - <https://www.google.com/url?>

Full name: Ashneer Grover

Till his resignation on 28 February 2022, he served as the MD and co-founder of BharatPe. He holds a BTech degree in Civil Engineering from IIT Delhi and an MBA degree from IIM Ahmedabad. Hailing from South Delhi, he headed Corp Dev from Amex India. He also served as the CFO of Grofers, an instant delivery service provider. He features in the Indian show “Shark Tank India” like a shark and gets paid Rs. 10 lakh per episode.

Bhavik Koladiya:

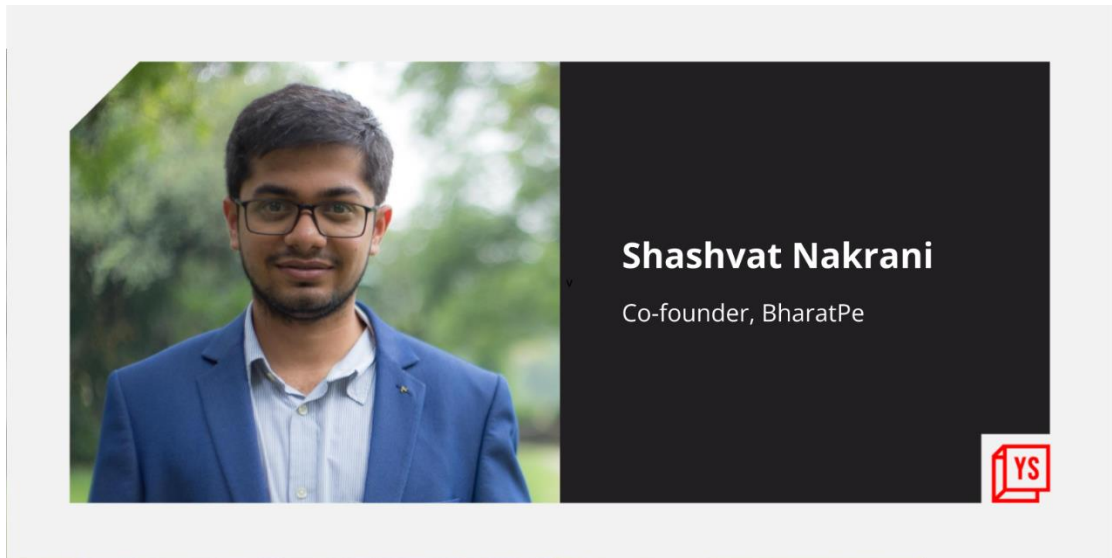

SOURCE: - <https://www.google.com/url?>

Full name: Bhavikkumar H. Koladiya (**Nickname:** Bob Patel)

He is the co-founder and Group Head of The Product and Technology area of BharatPe. He is an “Angel Investor” in many popular IT companies in India. Like Pristyn Care, Digifin, and LenDenClub. In March 2022, both the co-founders of BharatPe came into news channels. For fighting for their stake in the company.

Shashvat Nakrani:

SOURCE: - <https://www.google.com/url?>

Full name: Shashvat Nakrani

He holds a bachelor's degree in Textile Technology. From India's premier institute IIT Delhi. He completed his schooling from his father's institute in Bhavnagar, Gujarat. During his college days, he dropped out of his college in 2018. To start the UPI payment service provider, BharatPe. Shashvat Nakrani is one of the co-founders of the company. He was also named as the "youngest richest self-made individual" on IIFL Wealth Hurun India Rich List 2021.

➤ BharatPe marketing strategies:

BharatPe follows a unique marketing strategy that has helped the company reach skyrocket. Before the establishment of the company, other UPI payment platforms focused on consumers and customers.

The consumer is the buyer (generally a youth) and the customer is the QR Code which acts as a support system. So, the platform had to target two different entities and had to provide cashback to two different entities. Whereas, for BharatPe its customers were its consumers. Its consumer is the merchant. Thus, the company decided to provide cashback to the merchant himself.

The unique marketing strategy of the company led to two popular campaigns. They were “Ek Bharat Ek QR” and “Team BharatPe”.

SOURCE: - <https://www.google.com/url?>

BharatPe decided to select only crickets for its brand ambassadors. The makers of the campaign “Team BharatPe” realized that the cricket industry has a huge fan following.

They also found that the retail shops run cricket over their television screens. So, they understood that their target audience is cricket-oriented. The company created a priority in the minds of the merchant as well as the customers to prefer BharatPe over other digital payment platforms.

The other campaign “Ek Bharat Ek QR” gained a lot of popularity too. BharatPe assured the merchant and retailer that payments made through UPI payment gateways will reach their bank accounts Including attractive cashback.

During the pandemic lockdown, small businesses suffered great losses. After lockdown, when retailers were being asked to open up, they needed small loans which banks generally deny due to lack of collateral. With help of BharatPe, the SMEs and retail shop owners could take loans without any collateral and run their businesses again.

This unique marketing strategy has helped the [company reach sky high](#). They have plans to open up their payment bank for which RBI has already approved the license.

➤ **BharatPe Business model:**

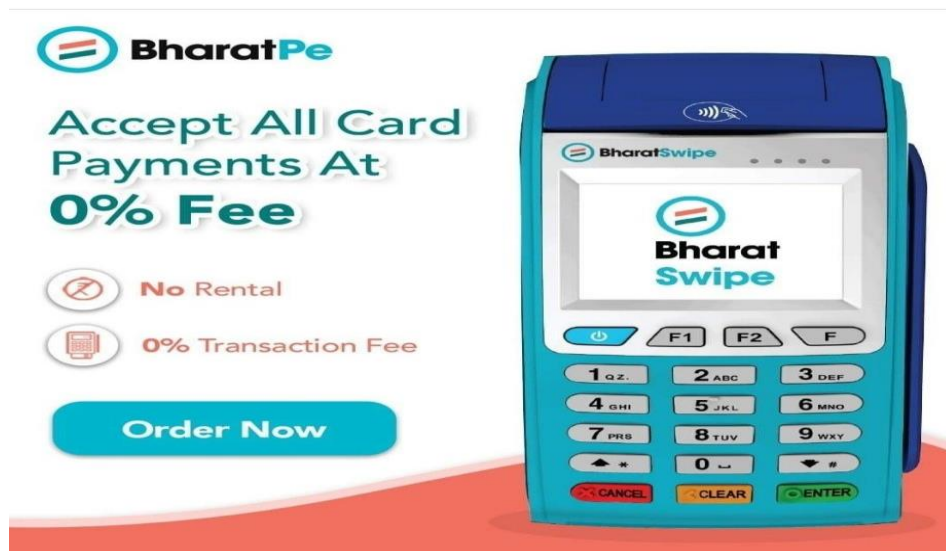

BharatPe is a B2B QR code-based payments company. The company provides a single QR code. To carry out payments from various platforms like Mobi Kwik, Amazon Pay, Google Pay, Free charge, True Caller, and many more. The retailers receive credits for transactions made into their bank accounts. BharatPe appointed many brand ambassadors from different industries. Let’s see multiple digital products provided by BharatPe.

- **BharatPe business app** – The app allows a customer to pay his bills or perform other transactions using a single QR Code. A user can pay his bill through the BharatPe app using UPI payment platforms like Paytm or Google Pay, etc.

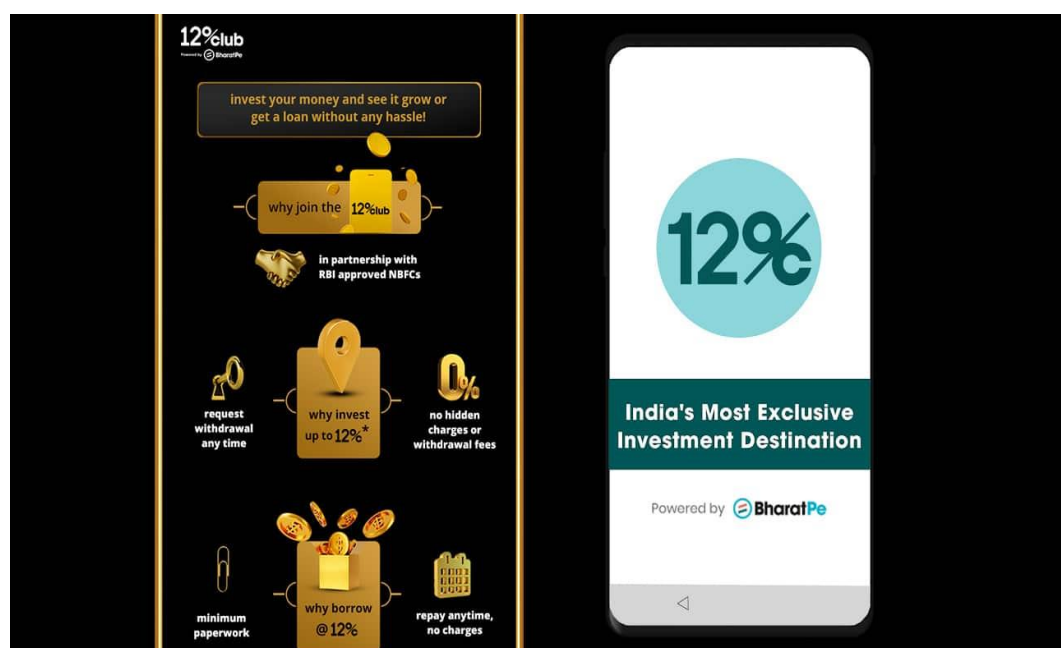

SOURCE: - <https://www.google.com/url?>

BharatPe swipe (POS Machine) – It is a card swipe machine of BharatPe launched in 2020. It works on 0% transaction cost. A customer pays his bill through any UPI payment platform. Swiping his card on the BharatPe swipe machine, the merchant then receives such payment and does not need to pay any commission on the transaction. Thus, the merchant earns a decent profit. This is beneficial for small businesses. The company has installed over 1 lakh machines across India.

SOURCE: - <https://www.google.com/url?>

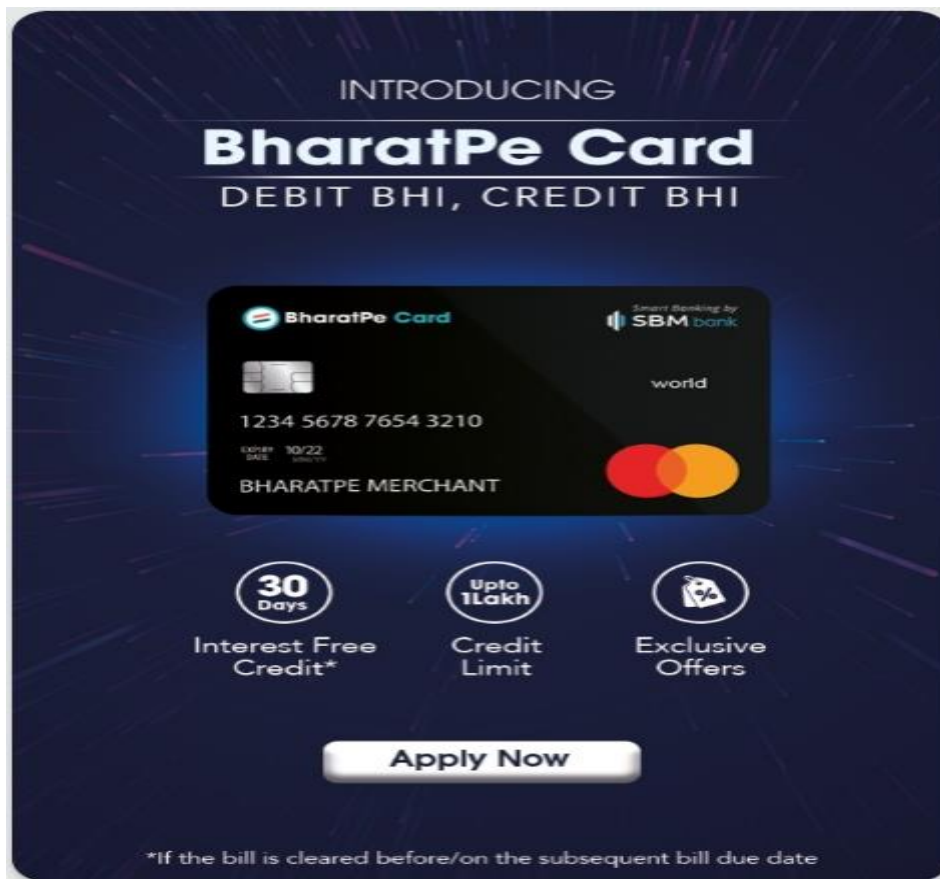

- **12% club** – BharatPe has collaborated with the **NBFCs** (Non- Banking Financial Company) to launch the “12% club”. It is a customer lending and borrowing app

SOURCE: - <https://www.google.com/url?>

Benefits of this app:

1. Users can invest and earn up to 12% annual interest without any lock-in period.
 2. The customer can borrow up to Rs.10 lacs and can avail of a loan up to Rs. 10 lacs without any collateral for a period of up to 3 months.
 3. The customer can withdraw his money anytime and anywhere.
 4. The company does not charge any loan processing amount.
 5. A customer can start investing with a small amount of Rs. 1000 and receive interest on such an amount.
- **BharatPe credit cum debit card** – A payment instrument card issued by [SBM Bank](#) (India) Ltd. in collaboration with Resilient Innovations Pvt. Ltd. It can get used as a debit as well as a credit card. Using this card the customer can get 1% cashback on all the BharatPe spends and also a credit limit of up to Rs. 1 lakh with no transaction fees.

SOURCE: - <https://www.google.com/url?>

- **Bharat X** – A fintech company, which enables a consumer-based company in India. To offer credit to its customers by integrating its APIs, BharatPe will work along with AI, Human-Computer Interaction, Econometrics, Data Science, and others.

SOURCE: - <https://www.google.com/url?>

- **Digital gold** – In October 2020, the company launched the products Digital Gold in association with “Safe Gold”. Safe Gold is a digital platform where a customer can buy/ sell 24K gold at low ticket sizes with the click of a button. The merchants can buy/ sell 99.5% pure 24K gold and they can carry out the transactions in rupees or grams using the BharatPe app. To ensure safety in gold purchases, Safe Gold appointed IDBI Trusteeship Services. The purchased gold stays within Safe Gold lockers with no commission charges with security. Furthermore, the merchant can keep a track of the gold prices linked with global markets.

BharatPe Gold Loan

The Gold Standard in Secured Loans

Lowest Interest Rate

Easy Daily Repayment

BharatPe Gold Loan is in partnership with RBI approved NBFCs. T&C Apply

SOURCE: - <https://www.google.com/url?>

- BharatPe launched a gold scheme on March 14, 2022, for its merchants by collaborating with RBI-approved NBFCs. The scheme can offer gold loans to the merchants up to a limit of Rs. 20 lacs. The company has already provided gold loans in the cities of Delhi NCR, Bengaluru, and Hyderabad and has plans to expand its offering to more cities by end of 2022.
- **BharatPe cricket-** The company partnered with the ICC in 2022. To promote the association through digital and broadcast mediums. The partnership will also ensure the involvement of BharatPe. At all ICC events throughout the term. Including ICC Men's T20 World Cup India 2021, ICC Men's T20 World Cup Australia 2022, ICC Women's World Cup NZ 2022, and ICC Men's World Cup India 2023. This association

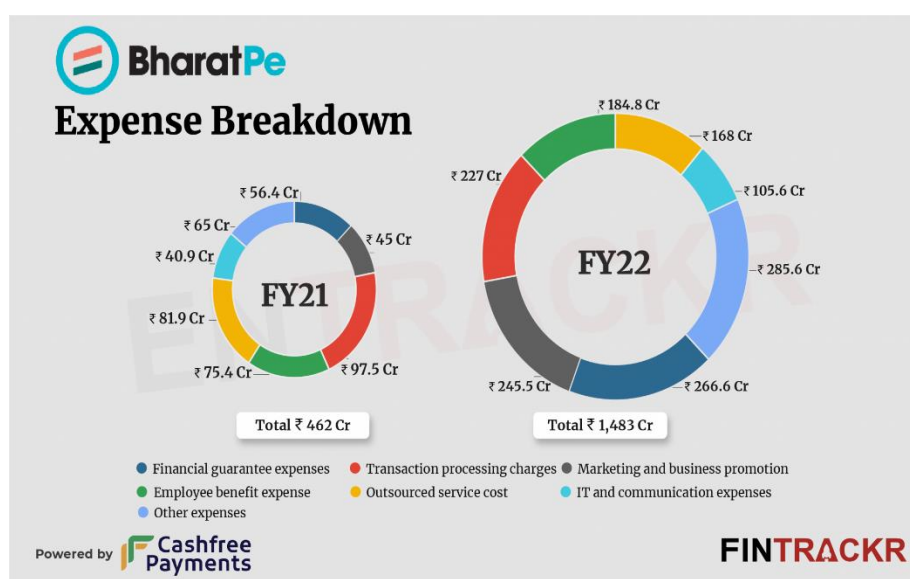

will enable BharatPe to conduct campaigns. Meant for cricket fans and shop owners across the country. Further, the company has its own “Team BharatPe”. Has 11 cricket stars as its Brand ambassadors.

➤ SOURCE: – <https://www.google.com/url?>

BharatPe gets listed as one of the Top 5 most valued Fintech startups in India. 29 investors have invested in the company. Some of its investors are Sequoia Capital, IIFL Wealth, Tiger Global Management, Coatue, Ribbit Capital, and others. BharatPe has 8 million merchants on its platform. Due to the controversy raised within the company. The co-founder and MD of BharatPe Ashneer Grover resigned from his services. He is the single largest individual shareholder of BharatPe. Based on the investigation

reports, he was being asked to sell out his company share of 9.5% but he laid a condition that he would sell out his hard-earned shares in exchange for an investment of Rs. 4000 crores.

He has hired a Delhi NCR-based law firm Karanja Wala & Co. to help him through the controversy, but on February 28, 2022, [he resigned from the company himself](#) by saying that, he is now wasting himself “fighting a long, lonely battle” against his own investors and management. He called the entire episode a “battle of egos”.

TIMELINE
Grover vs BharatPe

JAN 5: Expletive-laden audio clip leaks, allegedly featuring Grover and Kotak Bank employee.

JAN 6: Grover claims audio clip posted online is fake.

JAN 8: Clip is taken off Twitter and SoundCloud, Grover deletes his tweet.

JAN 9: Reports say Grover and wife sent legal notice to Kotak Mahindra Bank in Oct. Bank says it will take legal action over audio clip.

JAN 17: Grover's Aug 2020 email spat with Sequoia employee surfaces.

JAN 19: Grover goes on 'voluntary' leave until March-end.

JAN 29: BharatPe board announces independent audit.

JAN 30: Grover expects “amicable resolution” but hires a law firm.

FEB 4: Preliminary investigation report links Grover's wife Madhuri Jain with financial fraud. Grover's Feb 2 letter emerges seeking removal of CEO Suhail Sameer from board.

FEB 10: Jain writes to A&M questioning the leak of initial findings in report naming her.

BharatPe ballooning:

SOURCE: - <https://www.google.com/url?>

The company has been growing since its establishment and has emerged as a powerful digital payment platform. The process of applying for a loan through BharatPe is completely digital. The business app provides a merchant best offers, and other details before applying for a loan. Such a loan will get disbursed within 30 minutes.

The merchants can opt for loans for a duration of 6, 9, and 12 months, and then repay them through EDI (Easy Daily Instalments). The company has plans to launch an EMI option for the repayment of loans. The QR code-based loans will process with minimal paperwork.

BharatPe has installed over 1 lakh PoS machines across 16 cities in India. That supports transactions over Rs. 1400 crores per month. It has become one of the preferred digital payment platforms for SMEs, Also for Kirana store owners, restaurant owners, and other small businesses with less number of outlets.

The company claims to have disbursed loans amounting to Rs. 150 crores to its merchants during FY20. BharatPe also claims of earning Rs. 6.94 crore from its capital assets during FY20.

BharatPe challenges:

BharatPe has been on the radar of the Directorate General of Goods & Services Tax Intelligence (DGGI) for a long time. The governing body has been looking over the finances of BharatPe and found many loopholes within the organization.

Also, From the findings, Grover and his family have got alleged to getting engaged in extensive misappropriation of company funds and creating fake vendors.

BharatPe competitors:

- MobiKwik (MD & CEO Bipin Preet Singh)
- Google Pay (Founder Sujith Narayanan and Sumit Gwalani)
- Paytm (CEO & Founder Vijay Shekhar Sharma)
- PhonePe (Co-founder & CEO Sameer Nigam)
- PayU (CEO Anirban Mukherjee)
- Razorpay (CEO & co-founder Harshil Mathur) are some of the major competitors of BharatPe.

In 2020, the company launched “Paisa Bolega”, Which converts the merchant’s mobile into a speaker, and announces the amount of the transaction received aloud. The company recently disbursed loans amounting to Rs. 140 crores.

The company stands 3rd in the list of private POS providers. The fintech BharatPe along with the Centum Financial Services group together have plans to take over the troubled Punjab & Maharashtra Cooperative (PMC) Bank. RBI has also approved BharatPe to set up a small finance bank.

CHAPTER – 3

Marketing mix of BharatPe

While specific details about BharatPe's marketing strategy and case studies might not be readily available, we can explore some key elements that are often part of the marketing approach of fintech companies like BharatPe:

1. **Targeting Small and Medium-Sized Businesses (SMBs):** BharatPe focuses on serving the needs of small and medium-sized businesses, providing them with a simple and convenient way to accept digital payments. Their marketing strategy likely involves segmenting and targeting this specific audience through tailored messaging and positioning themselves as a solution for SMBs.
2. **Branding and Awareness:** Establishing brand awareness and recognition is crucial for fintech companies. BharatPe's marketing strategy likely includes building a strong brand identity through consistent branding, messaging, and visual elements. They may use various channels, including social media, content marketing, public relations, and events, to increase visibility and create brand awareness.
3. **Education and Thought Leadership:** Fintech companies often invest in educational content and thought leadership to position themselves as experts in their industry. BharatPe may create and distribute content that helps merchants understand the benefits of digital payments, provides insights into industry trends, and offers 10 tips for business growth. This strategy helps build trust and establishes BharatPe as a valuable resource for merchants.

4. Referral Programs and Incentives: To drive user acquisition, BharatPe may employ referral programs and incentives. They may provide existing users with rewards or benefits for referring new merchants to the platform. This approach leverages the power of word-of-mouth marketing and encourages merchant adoption.

5. Strategic Partnerships: Collaborating with other companies or organizations can be a key aspect of a fintech company's marketing strategy. BharatPe may form strategic partnerships with banks, payment processors, e-commerce platforms, or other relevant players in the ecosystem. These partnerships can help expand their reach, provide additional value to merchants, and create mutually beneficial marketing opportunities.

CHAPTER - 4

Swot analysis

A SWOT analysis is a tool use to evaluate a company's strengths, weaknesses, opportunities, and threats. Here is a brief SWOT analysis of all BharatPe.

. STRENGTHS:

1. Seamless Payment Solutions: - BharatPe offers a user- friendly and seamless QR code-based payment solution that simplifies digital transactions for small merchants. This simplicity and ease of use give the company a competitive advantage.
2. Zero Transaction Fees: - BharatPe's zero transaction fee model sets it apart from many competitors and attracts small merchants who are looking to minimize costs and maximize profits.
3. Access to Credit: - BharatPe's lending services provide small businesses with quick and convenient access to working capital, addressing a significant pain point for merchants in the Fintech industry.
4. Strong Market Presence: - BharatPe has established a strong market presence and brand recognition within a short period. Its growing customer base and partnerships with major financial institutions contribute to its competitive position.

WEAKNESSES:

1. Limited Product Diversification: Currently, BharatPe's primary focus is

on QR code-based payments and lending services. The company may face challenges if it doesn't expand its product offerings to cater to a broader range of merchant needs.

2. Reliance on UPI Ecosystem: BharatPe's business model heavily relies on the UPI ecosystem, which can be subject to regulatory changes or disruptions. Overdependence on a single platform could pose risks to its operations.

OPPORTUNITIES:

1. Untapped Market Potential: - Despite the growth of digital payments in India, there is still a significant opportunity to expand the adoption of digital payment solutions among small merchants. BharatPe can capitalize on this untapped market potential by increasing its market penetration.

2. Product and Service Expansion: - BharatPe can explore opportunities to expand its product and service portfolio to cater to a wider range of merchant needs. This could include introducing additional financial products, integration with third-party services, or exploring new technologies such as blockchain or artificial intelligence.

3. Strategic Partnerships: - Collaborating with banks, financial institutions, and other fintech companies can unlock new opportunities for BharatPe. Partnerships could provide access to new customer segments, technological advancements, and distribution channels.

THREATS:

1. Intense Competition: - The fintech industry in India is highly competitive, with numerous players vying for market share. Established players and new entrants pose a threat to BharatPe's market position and customer acquisition efforts.
2. Regulatory Environment: - The regulatory landscape in the fintech industry is subject to changes and uncertainties. Compliance with evolving regulations and licensing requirements could pose challenges for BharatPe's operations and growth.
3. Technological Advancements: - Rapid advancements in technology can disrupt the fintech industry. New innovations, payment methods, or platforms may emerge, posing a threat to the existing business models and market position of companies like BharatPe.

CONCLUSION:

BharatPe has a unique business model. Which makes it stand out from other digital payment platforms. They provide innovative and unique products and services to their customers.

At present they have over 1 million merchants, who use the platform to carry out their transactions and take loans. BharatPe has shown us the scope for business opportunities in India. It believes that the success of a business depends upon understanding its target audiences.
